JEWELRY. CHARLES FRODSHAM'S

CHRONOMETER WATCHES Boston, November 27, 1858. WE hereby constitute Mesers, JOHN KITTS & CO. Sole and Exclusive Agents for the sale of the Watches made by Charles Frodsham, \$4 Strand London, for the city of Louisville and State of Kentucky. S. WILLARD & SON, 9 Congress st., Sole Agents for the United States.

CHARLES FRODSHAM'S WATCHES. SIMON WILLARD & SON.

No. 9 Congress Street, Be Sole Agents in the United States of America of CHAS. FRODSHAM, 84 Strand, London, would respectfully give notice tnat, at the distribution of Prizes at the Great Paris Exhibition, 1855, the GRAND MEDAL OF HONOR

Was awarded to Mr. Frodsham for the perfection of the principle, mechanism, and performance of the Chronom-eter Watches exhibited by him, and styled his "NEW SERIES." The critical notice accompanying the award, writte by a distinguished French Savan, says: "Mr. Frodshan therefore, has rendered eminent service to science; it justice that he be rewarded for it, at least with the emic

giam of public praise."

In the new series, Mr. Frodsham has succeeded by a more perfect method of compensation, a more correct adjustment in isocurouism, and in an entirely new and peculiar construction of the train, in producing wasches unaffected by changes of temperature, position or motion, or even violent exercise, and at the same time of unrivaled accuracy. nrivaled accuracy.
At the London Exhibition of 1851, Mr. Frodsham's

unrivaled accuracy.

At the London Exhibition of 1851, Mr. Frodsham's contribution was noticed as bearing the stamp of pecular merit, and being the flower of the English school.—
In recognition of the excellence of the principle of his time keepers, the British Government has awarded Mr. Frodsham the sum of £3,170.

Mr. Frodsham, after a great number of experiments came to the conclusion that the only way to improve the watch was by adopting the proportions of the Marine Chronometer, its tests and adjustments:—this Mr. Frodsham has done in the watches of the New Sekies, and has found that with strictly chronometrical proportions they are quits at variance with many of those of the New Sekies watches to be stronger, more powerful, and more accurate than any heretofore produced.

The manipulation or mechanical excellence of finish of the work, each Watch being a model of perfection.

The final adjustments of Compensation, Isochronism, and Positions,—whereby neither extremes of temperature, violent exercise, nor change of place, have any appreciable disturbing effect.

As a pecuriar advantage, there is no danger of stopping under the most violent motion, either in the cars, on horseback, or in any vehicle.

In over one hundred instances these watches have as tood the test of actual daily noting, and have exhibited as a result, a rade equal in regularity to the beat Marine Ohronometers. In several instances, their performance at sea has been superior to the Chronometer.

To those who reside on the line of railroads, or whose a vocations taking them frequently in the cars, make a perfect time keeper less of a luxury than a necessity, when the performance with the cars and the sea of the confidence.

Wm. Brown, Esq., a distinguished engineer of Ohio,

these Watches are recommended with the most complete confidence.

Wm. Brown, Esq., a distinguished engineer of Ohio, writes of these watches: "Finally, from what I have known of Frodsham's Watches, I am strongly impre sed with the idea that they are a decided improvement on all other time-pieces, and were they set in gimbals, and used with some care, I think their performance would equal that of Mr. Frodsham's celebrated Box Chronometer, and would answer the same purpose for determining longitudes."

Those who want to vote at the April election nust pay their poll tax before the 14th day of this nonth. The Know Nothings, for the purpose of ouying enough votes, by paying taxes, to carry etions, got the edious law through our Legisature which disfranchises every man who don't ay his tithe twenty days before the city election. Let every Democrat disappoint the originators of this infamous law by paying his poll tax at once. The tax is only \$1 50 per head, and if any man is too poor to pay it, let him call on his neighbor or help. There are hundreds of generous Demcrats in this city who will not permit a poor man o be disfranchised because he can't pay \$1 50, as do his rulers, whom the Journal calls the elite of

Kentucky. HARGADON DISCHARGED .- Michael Hargadon, who as been in jail several days for stabbing Phil. Vetter, was released from the custody of the law esterday. The evidence, as given in our police eport, shows conclusively that he acted in selfefence. The wounded man is recovering. When the Court informed Hargadon he was discharged, e arose and said that since his release from the tate prison, for killing Joe Medley, he had never touched a drop of liquor; that he had been working hard to discharge the obligations due friends who had assisted his family when he was in jail

and the prison, and lived as an honest man. He wanted to know of the Court what he must o when such men as Vetter assaulted him with pithets and blows without provocation. The Judge told him he had the rights of any other itizen, and in self-defence could repel force by force. If he was in imminent danger of losing his life, he had unquestionably the right to use weapons. But when assailed merely with words and threats, he ought to claim the protection of the law. The Judge also said it was better to submit to a little whipping than to slay.

HORRIBLE MERDER AND SUICIDE. - A private ote from Mr. W. S. Hogeland, says the Lafayette, (Ind.) Re-loading the gun, he placed the muzzle to his mouth, and pulling the rigger with his toe, blew his brains out. He was astantly killed. The unfortunate woman, alhough shot through the brain, lingered until

yesterday, when she expired in great agony. INVADING EDEN'S PARADISE .- Eden, whose sur name is Charley, has been keeping a cozy lager beer saloon on Third street. Charley left some days since, ostensibly on business, but a constable, at the instance of some of his creditors, believing he would not return, invaded Eden's ager beer paradise, and holds the establishment as per law. Eden is remarkable for his clever ness, and those who know him best think he wil soon be back all right, and make matters all right and, perhaps, institute legal proceedings against those who have dealt with him so summarily.

The soil of Kentucky is red with the blood of been butchered in cold blood. But of the latter | best of references. we know of no case more atrocious than the assassination of Thomas S. Lowe, in the Hawesville jail, yesterday, by a bloodthirsty and cowardly

A feud had existed for a year between Lowe and Cicero Maxwell, Commonwealth's Attorney of that Judicial District, which had its origin in party politics. Lowe sent his adversary a chalenge sometime since, which he refused to notice. Lowe then sent him word he would cowhide him on sight. Maxwell did not attend Court at the last erm, and it is said for the reason he wished to avoid a personal conflict with his determined and desperate foe.

The Court met on Tuesday, and Lowe publicly declared Maxwell a poltroon and a coward. The nformation was given to Maxwell, who armed aimself, and with a body of friends, attacked lowe. The latter, as we related yesterday, retreated. A number of shots were fired, one of which killed a man named Aldridge, or Eskring. owe was wounded, and finally caught. It was ought for a while the mob would lynch him, but nally he was taken to prison and disarmed.

The town was feverish with excitement, and n Wednesday night, the mob, who of course hated Lowe, (mobs always hate brave men,) increased in numbers and the thirst for blood. During the night it was decided to force the jail and lynch Lowe, or if they couldn't approach him, kill him outright. On yesterday morning, in accordance with the

lans, the mob attacked the jail, and fearing to lay hands upon their victim, fired upon him. He eceived some sixteen or eighteen balls in vital parts, and died instantly. This dreadful affair is the theme of conversation n every social community in the country. No went of a similar kind in our remembrance has excited so much comment. We subjoin some desketted so much comment. We subjoin some de-tails of the operations of Key and Sickles, as fur-nished by a Washington letter to the Philadelphia ocracy? His name is, in fact, but another word for indomitable firmness, and whole-souled devo-tion to Democratic doctrines of the add Jackson nished by a Washington letter to the Philadelphia Press. The story begins at the point where the friend of Sickles proceeds to inquire as to Key's

niring a house for the indulgence of his lust: Mr. Wooldridge undertook the mission, and visted the neighborhood indicated in the anonymous missive, to see whether such a house had been let last summer, and under what circumstances the lease had been granted. He there learned that Mr. Key had hired such a dwelling, at the time alleged. The landlord was a colored man named John Gray, who stated that he received fifty dollars a month rent for his house, he having furnished it, etc. The house was a two story brick; no one else occupied it. Mr. Key commenced going there with Mrs. Sickles in the month of January last. Key generally entered first; and going up stairs, would hoist the first window over the door, and hang out a towel or a white handker. ssive, to see whether such a house had been let door, and hang out a towel or a white handker-chief as a signal to Mrs. Sickles that all was clear. He then would leave the door sjar, for Mrs. Sickles

The last time Mrs. Sickles and Key had been at his house was on Wednesday, the 23d ultimo. On that occasion they entered in the back way, through an alley leading to Sixteenth street. On this Wednesday night there came along a man closely muffled in a shawl. He asked a colored woman standing on the pavement whether the house was then occupied or not?

"Yes sir" was the response.

"Yes sir," was the response.
"Yery well, that's all I want," the mysterious entleman replied, and turning around, walked way in the direction of K street. He was observed, however, to hang around the neighborhood for a good part of the evening. Eventually Key was seen to leave the dwelling, and the stranger muffling his face still closer, spoke a few words to Key and then hurried off. It is supposed by many that he was the author of the anonymous letter.

Mr. Sickles knew of the intimacy existing be-ween Mr. Key and his wife. He supposed it imply an innecent but incautious flirtation, and, on account of the scandal that it excited in many errcles, he remonstrated with her. She did not beay any heed to these entreaties of her husband, out continued uninteruptedly her singular but (by her husband) unsuspected intercourse. Key was known to be in the habit of attending the theater, pera, balls, soirces, and other places of gaiety nd fashion, and was most invariably accompanied y Mrs. Sickles. Before the fatal denouement of this unhallowed stercourse, Key had been time and again warned whis friends that something dangerous would row from his criminal attachment. He was acstomed, however, to treat these friendly admo-ions with an air of haughty bravado. He would isten to no remonstrance from any quarter. The two facts last stated are significant. It is a sad commentary on the shallowness of friendships in fashionable eircles here, that of all the gay throng which crowded the parlors of Mrs. S. on Thursday

[Correspondence of the Louisville Courier.] The Seventh District-8. S. English. HENRY COUNTY, KY., Feb. 22, 1859.

Bditors Louisville Courier: I saw in your paper lately, a letter from Henry county, signed "An Old Line Jackson Democrat," reecommendmother column, signed "Applicant." The young the suffrages of the people of this district at our next Congressional election. I am not aware who the writer of that letter is, but I like the spirit of it. I like, occasionally, to see a recom-mendation of one of the "Old Guard" to fill a high and responsible office; I like to give honor to whom honor is due-to one who has borne the burden and heat of the day. In times past, when it was asked, "Who can we get to run for Congress?" Col. English responded to the call of his old Democratic friends, although defeat, certain and overwhelming, was a fixed fact, and known as well before the election as afterward. And, now, should we neglect such a self-sacrificing adherent

on to Democratic doctrines of the old Jackson and Jeffersonian school.

Another recommendation of Col. English is, that he is well and favorably known to the people of his district. Old men admire him for his steadfast adherence to the political dectrines of his youth; the young men like him for his candon and gentlemanty hearing. Dismitted and and gentlemanly bearing. Dignified and manly in appearance, he is one of the most affable of the men of the old school of Democrats. None become acquainted with him but to like him. If iadorsed by a Democratic convention, there need be "no such word as fail."

Dispatches were also received this morning at the State and Navy departments from Commissioner Bowlin and Flag Officer Shubrick, of the Paraguay expedition. The dispatches are dated Montevideo, Dec. 28. The brigs, with the Water Witch would be left at brigs, with the Water Witch, would be left at Corrientes, and the Commissioner would proceed up the river in the Fulton. The Harriet Lane rival would tow the Bainbridge up the Corrientes.

Nothing had been heard of the Relief, Preble, or any other vessel of the expedition than those above mentioned. A map of the river at Asun-cion, said to be reliable, is also forwarded. It states the number of batteries at that point to be eleven, several of them mud, mounting one hundred and one guns. The Commissioner gives his speculations at considerable length, and the general feeling was favorable to success. Commissioner Bowlin mentions in his dispatches that the Brazilian government tendered their mediation, but that he informed them he had no authority to eccent it.

LOUISVILLE:MARCH 4, 1859. FRIDAY, Reading Matter on Every Page.

How the Galled Jades Wince. The old hunker organ tries to evade the responsibility of the street-paving frauds we have been exposing for some days, by charging that they originated under a Democratic administration of the city's affairs. The editor would have his readers believe that James Speed was the Democratic Mayor under whom these frauds started, and that Speed was sustained by a Dem-

ocratic Council. The truth is very different. Speed was elected Mayor as a Whig, and the editor of the Journal did all he could to put him in office. When the editor of the Sam-Nicholasite organ, assisted by his confederates, murdered the Whig party to give place to the infamous Sam, Mayor Speed very properly went over to the Democracy. And while he was Mayor, a majority of both boards of the Council consisted of members who have since been Know Nothings of a marked character. We don't remember the names of all of them, but we know that Weatherford, and Shanks, and Kalfus, and Musselman, and Howard, and Delph and Taylor, and Harris, and Kaye, and Burton, at different times controlled the Board of Alder men; while Baird, and Taylor, and Burton, and Ben Pollard, and Tom Pollard, and Ripley, and Monsarrat, and Stancliffe, and Atkinson, and Ear ick, and Strother, and Richardson, and Penne baker, controlled the Board of Common Council

But we care nothing about the administration of James S. Speed. We do not pretend to say that bad contracts were not ordered by the majority of the Councils of 1852-53-54, and that they were not signed by Speed. But we do say that this fact does not relieve Know Nothing officials of the charges we have made agains them. Let every administration of the city's af fairs stand on its own bottom, and those of the Know Nothings will be found suspended on nothing, so far as good deeds are concerned. The illegality in making these street contracts

would, perhaps, never have attracted attention but for the outrageous frauds attempted to be practised upon the property holders, by the official reception by Know Nothings of work not half done, and the attempt to extort from the property owners fall price for half-done work. Let every one who wishes to be enlightened on this branch of the controversy, read the proof and the master's report in the case of Bros Millet. It was in resisting that fraud that the il-

legality of the contracts first was brought into no-In their eagerness to help their pet contractors the city officials would receive work not half done; and now the Court of Appeals have, with "even-handed justice, commended the poisoned halice to their own lips." They not only decree that the city must pay for the work, but they decide that inasmuch as the officials had received the work, they are bound to pay the full price for it, however badly and imperfectly it may have been

A Slight Variation.

A hard-shell Baptist, once upon a time, preached a great sermon upon the creation of the world -He descanted hugely upon the making of man, giving a full description thereof, according to the criptural account. When he came to the other sex he contented himself with saying that "God made woman in the image of man, with a slight variation." At this point, one of his congregation exclaimed, "the good Lord be praised for that little variation

We suppose we ought to be as thankful to the editor of the Journal for the variation between his editorial of yesterday and the one three days previous, on the street-paving frauds, as the hearer of the sermon was to the Lord for the variation etween man and woman. On the first day of this month the editor cleared his political friends of all guilt in the street-paving frauds in the following words:

The administration organ in this city has been denouncing the municipal government for some time past, on account of the less sustained by the city on paving and grading contracts, which have been decided by the Court of Appeals as not binding upon the property holders. We have not been able to get all the facts bearing upon the case, but have sufficient information to be able to state that the charges, as against any American administration, are without foundation, the contracts in question having been made before the forms tion of that party.

On yesterday, however, just three days after the editor of the Journal wrote the above paragraph, acquitting his brethren of all fault in the street-paving frauds, he wrote the following, which is certainly "a slight variation" from the

In our search we find the following contract the only one made in Gen. Piloher's term of the Mayoralty, dated July 6th, 1857: the case of Keagan vs O'Mara and others, involving the sam of \$1,551 03, which the city loses. The cases of Kimball & McAtee vs. N. Albert and others for \$2,751 42, October 16th, 1856; Obst vs. Eley and others for \$1,334 36, September 25th, 1856; White & Selvage vs. DeWolf's heirs and others for \$1,215 01, June 5, 1856, and John G. Lyons vs. J. T. Sanders and others for \$1,234 48 September 25th 1856 and others for \$1,839 42, September 25th, 1856, during the term of John Barbee, are all of the same nature, and will all go against the city.

will proceed to the cemetery. Now, these five contracts foot up the sum of \$8,191 24. Of course that sum is a small matter in the opinion of Know-Nothings who handle hundreds of thousands of dollars of the people's money, and who can elect, re-elect, and keep in office an Auditor who makes an official report of FAMILY SEWING MACHINES, the condition of the finances of the city that shows a discrepancy between his general and specific account of the expenditures of the city's revenue

fer a single year amounting to \$84,238 92. This slight variation between the editor's defence of his friends, in the short space of three A NEW STYLE. PRICE 350. days, indicates that time may work miracles with him. If he will vary his excusing of them \$8,191 24 every three days for the next month or two, or at the rate of \$2,780 41 per day, he will after a while come within the neighborhood of acknowledging the amount out of which the city has been choused by the street-paving contracts of his brother Know Nothings.

"We understand "elite" to signify the best part. It was the duty of our political friends throughout the State to send their best men here to act for them, and we are proud to say that they did not fail in that duty.—Lou. Jour.

How then do you rate the Hon. Joshua F. Bell, who was not in the convention? Is he one of the best part, or one of the worst part?

If the convention of the 22d was made up of the best part of the Opposition, it might be interesting to inquire what sort of people the worst part may consist of? As a matter of course, the thousands of Oppositionists who were not in the convention will be a little surprised at the degrading manner in which the few Sam-Nicholasite elite who were present have rated them. We suppose that Lord nolas, Prince Robertson, Brother Bullock, and Organ-grinder Prentice, with their favorite O'Dells, ans, Matlacks, and Clements, would designate all the Oppositionists who were not in the aristocratic pow-wow, as worse, worser, WORSEST.

informed men are to be relied upon.

The people here are for Guthrie. They like his administration of the Treasury Department, and

they like him on the tariff question. The politi-cians are against him as a matter of course, for there are any number of little upstarts who are

ols enough to aspire to the same office, or to

make their not much greater friends aspire with the hope of favors under them. But if you of the South will keep the ball in motion, Guthrie will

knock down all the small ten-pins, and the big ones too. He will be our next President if there

We are recieving daily all the new styles of Silks in great variety, to which we would call attention. Our stock of Grenadine and Berage Robes, Plaid Berage; Ducale Cloth, "Picolomini Collars," Illusion Berthas, Jaconet, Swiss, and Lace Setts, new style Skirts, Stella and Berage Shawls, Kid Gloves, etc., is now complete. We have just received a large stock of Parasols, which will be open for inspection in a few days. feb26 dtf Corner Fourth and Market streets.

P. S. Particular attention paid to orders. Hoop Skirts .- The best tempered steel is found to be far superior to any other article for making Hooped Skirts, and John M. Robinson & Co., late Robinson & Bro., are still manufacturing in large quantities their celebrated Double Extension Patent Bustle Skirt, using exclusively the very best tempered watch-spring steel. Many of the argest retailers will not buy any other than these opular Skirts, and their customers pronounce hem superior to any they have ever seen worn, the hoops being so very elastic and pliable, that the Skirt is never thrown out of shape.

All orders for any quantity of these popular Skirts can be promptly filled, the assortment running from six to thirty hoops, including Misses' of all sizes.

NEW Spring Dry Goods .- We must call the attention of our lady friends to the splendid assortment of elegant Silks, etc., now being daily received by Martin & Penton, 96 Fourth street, between Market and Jefferson. LYON'S MAGNETTO POWDERS,

Will destroy Garden Insects, Cockroaches, BedBugs, Fleas Anis Moths, and all pests

of the vermin kind.

The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these
annoying foes. This powder is the only article ever discovered which will exterminate them. A company of
botanists, from the Horticultural Society of Paris, while
amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead.
This fact was made use of to guard their night camps
from these intruders. Quantities of the plant were from these intruders. Quantities of the plant were brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters Patent have been obtained from the Governments of England, France, Germany, and Russia, from the World's Fair, and numerous medical and horticultural colleges, and societies. Letters from the President of the United States.

Mr. Bright, of Indians, from the Committee on finance, moved to amend so that Senators shall be allowed mileage for the extra sessions, but ot constructive mileage in any case. Agreed to. Protracted discussions occurred on various tri-ial items, such as furniture, etc.

At 1 o'clock, without taking any action on the

oill, the Senate agreed to adjourn.

House,—Mr. Pettit, of Indiana, protested against making any appropriation at all. He asked whether the Secretary had made the contract on any other authority than that contained in the joint resolution empowering the President to obtain satisfaction from Paraguay. Mr. Bocock replied that that was all and suffiient.

Mr. Clark, of N. 1., was not without apprehen-sion that the American people were in the wrong. If the President and Secretary had a right to build a navy, they had a right to add additional regi-ments to the army. If the navy was insufficient, Congress should have been advised of the fact.— This chartering or purchasing of worthless steamers was a private speculation carried on under the authority of this Government. Mr. Bocock said that Mr. Clark must pardon him if he could not sympathize with him in his personal dislike to the Secretary of the Navy. If

these vessels are purchased, they could be sold again, and every dollar saved to the Government. He defended the Executive, showing that the joint resolution authorized the President to employ such a force as he may think proper. LADIES' BENEVOLENT SOCIETY such a force as he may think proper.

Mr. Davis, of Md., said that the joint resolution virtually conferred on the President the warmaking power, and we are now beginning to reap the fruits of that most improvident and hasty legislation. The Executive had created of funds not given him a fleet which Congress did

unds not given him a fleet which Congress did not authorize him to create, and has gone on waging war without authority.

Mr. Phelps, of Mo., said Congress had invested MOZART HALL he President with authority to use such a force the deemed expedient, and he read from the seech made at the last session by Mr. Ritchie, herein it was said that the President would act on the authority of Congress, and he believed the exhibition of a few small vessels would pro-cure a settlement of difficulties, and no necessity

would occur for the use of force.

Mr. Grow, of Pa., said that, instead of trying the Secretary, Mr. Phelps was arraigning the gentleman from New York, and added that the Secretary had clearly exceeded his authority in chartering reasols. chartering vessels.
Mr. Letcher, of Va., read from his own speech

on a former occasion to show that he then thought the joint resolution practically transferred the war-making power to the President. Twenty-seven of the Opposition members voted for that resolution out of 115, and 18 Democrats voted against it.

Mr. Garnett, of Va., remembered that he was one of those who voted against it, not being willing to confer the war-making power on the President, but he was willing to carry out the contracts while increasing the navy.

Mr. Howard said the resolution did not come within a thousand miles of authorizing the Secretary to charter vessels.

ary to charter vessels.

Mr. Lovejoy, cf Ill, proposed to suspend all proceeding and recall the vessels. Rejected—

Mr. Ritchie, of Pa., as his name had been mentioned, said that he thought there was cause for the passage of the resolution then, and thought so now. The Committee on Foreign Affairs had eported it unanimously, when it was passed. The consibility of carrying it into effect devolved responsionity of carrying it into enect devolved on the President.

Mr. Branch, of N. C., was for recalling the fleet when Paraguay was sufficiently chastised.—

After further debate, the Senate's Paraguay After further debate, the Senate's Paraguay amendment, as amended by Mr. Bocock, was agreed to by the majority; it was subsequently concurred in by the House—yeas 83, nays 77.

Washington, March 3.-The Indian Bureau has received no information from the Government agents tending to confirm the reported difficulties with the Mohave Indians in New Mexico.

It was feared last night that Postmaster General Brown would not recover. This morning, however, there is a marked improvement, although not sufficient to allay all apprehensions. It appears that Mr. Sickles was called upon by the Rev. Mr. Healy and informed that Mrs. Sickles was in great mental agony and under extreme physical suffering, and that if such a state of feel-ing continued long to exist it would probably end in mental abberation or perhaps self-destruction. It was under such circumstances that the appeal was made to him to restore to Mrs. Sickles the wedding ring, which Mr. Sickles had taken from ner hand on the day of the tragedy.

Mr. Sickles said in response that under these ircumstances he could not resist the appeal in behalf of one he had so long cherished with such leep affection, and that, whilst he was willing to return the emblem of their former love and union, he returned the ring broken payer to be

DR. JOHN BULL'S Compound Pectoral of Wild Cherry,

COUGHS, COLDS, ASTHMA, BRONCHITIS, INFLUENZA, PAINS IN THE SIDE AND BREAST, SPITTING OF BLOOD, AND CONSUMPTION,

Is rapidly advancing in the estimation of the public. It is no empirical nostrum; its component principles are made known to the entire medical faculty. It is prepared accurately from the recipe of an experienced and talented physician, and has proved itself to be the greatest remedy for all diseases of the Lungs ever discovered; and wherever it has been introduced it has made cures which are perfectly astonishing. It is bound to supersede every other Cough Medicine before the public. Testimonials are daily being sent in to the proprietor, of cures effected even after physicians had abandoned every hope. A single trial will convince the most incredulous of its efficacy in curing that class of diseases for which it is designed. Why is it that so many die every year of Consumption, or some other disease of the Lungs? Because they neglect its sure forerunner—a "simple cold,"—which might be easily cured by the prompt use of a single bottle of Dr. John Bull's "Compound Pectoral of Wild Cherry." We say, therefore, Try it, by all means. It this does not cure you, nothing can. which are perfectly astonishing. you, nothing can.

Sold by all Druggists everywhere.

instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on sorictly scientific principles after the manner of the celebrated Holland Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its traip wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerveralsing up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

CAUTION:

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. THE RIVER continues to fall quite rapidly, about 8 feet in 24 hours, with an ample stage of water on the falls for all purposes of navigation, and the canal entirely overflowed. Third street bridge about two feet above water, and all the sid walks along Water entirely free from the en croaching tide, making fair wharf room for boats to land. The weather was as blustering and dis agreeable all day as generally prevails on the advent of March, which truly verifies its character of being a squally month. The wind was blowing hard all day yesterday, and very cloudy, with several attempts to rain. A heavy rain fell during

At Cincinnati the river was falling fast yester-day. It was also falling fast at Plttsburgh, and another rise may be anticipated from that Capt. Diller, the wharfmaster, yesterday had a mule power mud-rake at work on the wharf rak-ing down the mud. It was a huge iron scoop or scraper, and was worked to much advantage by

The Diana had the flood to contend against nearly all the way, and reports the Mississippi over its banks above Memphis, and rising fast all the way to Cairo.

Coal Lost.—We learn that one of a pair of coal boats, belonging to Heron & Peterson, bound for New Orleans, was sunk in the lower Ohio a few dars ago, at a place called the "Ox-bow." It is just above Flint Island. The wind was blowing, and the boat struck a tree on the bank which stove the side in, and it sunk almost immediately. Yesterday morning a small flat-boat with about 800 bushels of coal, just bought by Mr. Burkhart for his place just below Portland, was sunk while n tow of the Bull Terrier. She ran it under but held on to the boat, which was saved, while the coal was tipped overboard. The Melnotte and Potomac are due from

WASHINGTON, D. C., March 2.—SENATE.— The House bill appropriating \$10,000 to pay the expenses of the late Investigating Committee f the House was passed. The Miscellaneous Appropriation bill was taken Mr. Hunter's amendment, adopted in the Senate

Mr. Hunter's amendment, adopted in the Senate yesterday, was that the power for the issue and re-issue of Treasury notes conferred upon the President by the act of Congress of December 3d, 1857, should be revived, and continued in force from the passage of this act until July 1st, 1860, ant of \$20,000,000, the interest not to xceed 6 per cent., and to defray the expenses hereof, \$5,000 is appropriated.

Mr. Yulee offered an amendment authorizing the Postmaster General to increase the Atlantic and Pacific mail facilities by way of Panama and Tehuantepec, to the additional extent of \$250,000.

Tenuantepec, to the additional extent of \$250,000. Adopted—yeas 50, nays 12.

House.—Mr. Jones, of Tenn., moved an amendment to Mr. Grow's proposition, so as to assert that the Senate's postage amendment is not a violation of the Constitution. Thursday's Froceedings Continued.

Washington, March 3.—Senate.—Mr. Fitzpatrick, of Ala., moved to amend by appropriating \$120,000 for ten years to aid a line of steamers to the ports of the Mexican gulf, and Mexico having given a similar grant given a similar grant.

Mr. Fitzpatrick spoke in favor of the amendment, and was followed by Messrs. Wade, Benjamin, Shields, and Wilson. Mr. Wilson, in urging the appropriation, was estrous of limiting it to 4 years, and so amend-

ed, it was passed—yeas 24, nays 10.

Mr. Bright, from the Committee on Public Buildings, moved to amend, by giving the whole amount of \$500,000 to complete the Treasury buildings, nstead of \$50,000. Adopted. Mr. Iverson and many other Senators attempted o append claims and other business as amendnents, the discussion on which occupied much ments, the discussion on which occupied much time, but they were mostly voted down or set aside as out of order by Mr. Hunter, of Va., who, in an evidently uncomfortable state of mind, kept beseeching Senators to remember that there was no hope of passing their crude amendments, which only obstructed the indispensable legislation of the country and periled the celling for tion of the country, and periled the calling of an

TO THE PUBLIC.

CALL attention to the notice of the Peoria Insurance Company from the Chicago Daily Press and Tribune, who know what they say to be true. Such evidence must prompt by some malicious sianderers of our city, and \$52,000. This surely is a sufficient guaranty to all who will insure. Its business is very large and reliable those who want insurance to give ma a call. The agency is now under the control of the underwriters of this city, but free and untrammelled. Riaks taken on my own judgment, and if any loss occurs, it will be paid promptly. Marine policies issued and 10 per cent. preminer retained on all insurance, to be settled by note every six months.

Our sales are strictly confined to the WHOLESALE BUSINESS, and we respectfully invite merchants to examine our goods. TO THE PUBLIC.

Grocers, and the Public.

OUR tobacco factory was very near being destroyed by fire on the night of the Ith of January, on Main, near Ninth streets. The roof being partially burned, our boxes under press were removed in the street, and were partially damaged by the water and rough handling of the boxes. Mr. J. B. Mollvaine, the agent of the Peoria Insurance Company, came very promptly and ordered the roof to be repaired, &c. Arbitrators were mutually chosen, the damages satisfactorily arranged, and he has this day paid the damages in full, allowing claims for labor in protecting the house from the figures, and for removing the stock out and back

any other company, being subjected the solutions.

The Officers and Directors of this company are men of tried experience and unblemished integrity, and the success of the company proves that they have the requisite ability to manage the affairs of such an institution. One peculiar feature in this company, which places its stability and permanency beyond a doubt, is, that by provision of its charter, if by any means the capital of \$300,000 should become impaired a single dollar, and should any policy be issued thereafter, the Directors render themselves personally liable for any loss that may occur.—As the Directors would not care to incur such a responsibility, and even if they did, as their aggregate wealth As the Directors would not care to incur such a responsibility, and even if they did, as their aggregate wealth is quite large, the policy holders have an extra protection and safety by this provision of the Charter, which exists in but few if in any other company. Under the excellent supervision of J. Augustus Wright, its efficient and enterprising agent in this city, the company has done a large and very prosperous business the past season, and we trust and believe it will be still increased from year to year. We are decidedly in favor of patronting our own companies when we know them to be a control of the cont rrom year to year. We are declicedly in layor or pa-tronizing our own companies when we know them to be sound and well managed like the "Peoria." We have had insurance in the Peoria Company for several years, so that we practice what we preach, and we cordisily sommend it to our friends and fellow-citizens generally.
